

*Pour out, top up!*  
**For fizzy, warming  
and aromatic indulgence.**

Drinking with WMF

[www.wmf.com](http://www.wmf.com)

WMF Gourmet Moments

*Coffee or tea?  
Just pour it out  
and enjoy  
the harmony.*

Coffee or tea? – It is not a question of principles – preferably both. But, depending on the time of day or occasion, fruit teas are sometimes just better than coffee. The design delivers the key to stylish indulgence. The pots in the **CoffeeTime and TeaTime collection** have matching designs. Milk and sugar accessories are available in any combination. They fit together to give your table an overall harmonious appearance.

All the items can also be used individually.

The straight line design and trendy combination of materials are suitable for any setting.

See page 7 | 13

Brew up and **top up!**  
Before, during *and*  
after eating.

Let the water bubble, then brew up the fine powder until the scent of hot coffee fills the air. The products from the WMF World of Coffee are both beautiful and practical. You can quickly and easily prepare coffee with a rich aroma. You will find everything you need to enjoy your coffee from our diverse product ranges.

# WMF CoffeeTime

Coffee indulgence brewed by hand. With the French Coffee Press coffee maker, the plunger just needs gentle pressure to push down the coffee grounds. The double-walled glass keeps the coffee warm. With the Light Brew, the fine honeycomb structure ensures that water and coffee have the optimum contact time to allow the fine coffee aroma to develop. Both jugs have a clear design and give a full fragrant aroma.

# Barista

The Barista range has a cup for every type of coffee, enabling it to develop its individual taste to its full potential. Three factors here are key: the dimensions (cup height and diameter), its thickness, and its shape. Milk and sugar accessories are available in a matching design.

*Pour it on,  
let it brew!  
And then just let  
it out.*

Boil the water, pour it into the jug. The large tea strainer ensures maximum flavour. It gives the leaves enough room to develop. Tea is a pleasure served both hot and cold.

**1** SensiTea tea cup with saucer, Cromargan® matt, glass, 06 3691 6030 **2** SensiTea French Tea Press tea pot and rechaud Cromargan® matt, glass, 06 3690 6030 **3** SensiTea sugar bowl Cromargan® matt, plastic, 06 3692 6030 **4** WMF IceTeaTime ice tea jug with strainer and spoon, Cromargan®, glass and plastic, 06 3637 6040 **5** WMF IceTeaTime ice tea glasses 2-pieces, double-walled glass, 09 3638 2000

## SensiTea

Stylish right down to the detail. The contours are sharp. The jug and rechaud fit together neatly to form one unit. The handle and spout emphasize the function of the products. High grade materials for quality.

### Tea set

Tea pot with tea strainer and rechaud – integrated tea press system, Cromargan® matt, WMF glass

06 3690 6030

### Tea cup with saucer

Cromargan® matt, WMF glass  
06 3691 6030

## SmarTea

The round shape is a reminder of cosy hours spent drinking tea. The rechaud, tea pot and lid fit together in a harmonious way. The large strainer guarantees the full flavour of the tea and simply clips to the lid when the tea has brewed.

## Recipe for iced tea

Prepare a litre of black tea and sweeten to taste. Add lemon juice and leave to cool down to room temperature. Pour the black tea through the Turbo Cooler before serving. Refine the taste with lemon slices and mint leaves and enjoy as an ice-cold, refreshing beverage.

# WMF IceTeaTime

Iced tea is a great thirst-quencher in summer and tastes best when home made. If you ever forget to chill it in time, the Turbo Cooler can help. It chills iced tea and all non-carbonated drinks in just a few seconds from room temperature to refrigerator temperature.

**IceTeaTime Turbo Cooler**

# Akva

Feel refreshed with crystal clear water! During the filtering process, the patented Mg<sup>2+</sup> technology mineralises ordinary tap water with magnesium ions. It also removes limescale and substances that stunt the taste. This makes tap water taste noticeably better, while coffee and tea develop more flavour.

## Filter decanter

High-grade synthetic material, also available with a soft water filter cartridge, capacity 2.6 l, in black or white

06 1782 7390 (black, hard water)

*Decant, enjoy,  
discuss! And give your  
eyes a treat too.*

Pull the kork out of your bottle, the noise announces the evening. Decant your wine and let him breathe! Shake the shaker in your own rhythm. Clinking glasses, again, make your evening legendary!

A man with dark hair and a well-groomed beard is smiling warmly at the camera. He is wearing a light-colored button-down shirt and is seated at a table. In his right hand, he holds a clear glass filled with water. On the table in front of him is a white bowl containing several small, rectangular crackers. To his right stands a tall, clear glass French press coffee maker filled with dark coffee. The background is a bright, slightly overexposed window.
