Make clever use of limited storage space:

## **Silit Compact stackable cookware**

**The kitchen is the number one meeting place and communication point. That's why clever kitchen equipment is particularly important in small kitchens. At Ambiente 2020, the Silit brand is offering the perfect solution for this with a new cookware range: The Silit Compact stackable cookware enables optimal use of limited storage room and saves a great deal of space. The cookware is available in black as well as in the trendy colour petrol.**

The Silit Compact series combines excellent cooking properties with an added bonus in terms of convenience because each pot set can be stacked to save space in the smallest of places. Another quality feature is the unique material Silargan® with its cut- and abrasion-resistant, non-porous closed and nickel-free surface. This makes each model particularly stable, long-lasting and energy efficient. The ideal heat distribution and high heat storage capacity also ensure the optimum preservation of nutrients during cooking and the gentle preparation of dishes. The inner and outer Silargan® surfaces of the pots are guaranteed for 30 years, provided they are used as intended.

However, the Silit Compact series is not only the right choice for demanding chefs but also for fans of design because the individual models are available in timeless black and in the trendy

colour petrol. This combination of blue and green brings elegant colour accents into the kitchen and coordinates wonderfully with natural tones, black, white and grey. The design of the series is harmoniously rounded off by elegant stainless steel handles. With the glass lid, you can always keep an eye on the contents while saving energy during cooking. The wide pouring rim offers maximum convenience for portioning and pouring. The pots are suitable for use on all types of hobs.

### About the Silit brand

Cooking with products from the Silit brand is all about a passion for pleasure. This means designs in fresh trendy colours that are also highly functional. The Silit brand stands for natural cuisine with an authentic taste, as provided by the cookware made of Silargan®, the unique material made in Germany. Silargan®, with its extremely hard, smooth surface, only emits heat when cooking. The taste and ingredients remain unaffected by the material and all food retains its original natural flavour. The Silit brand has revolutionised cooking thanks to Silargan®. And that's what makes a culinary expert: a blend of passion and knowledge that delivers groundbreaking innovations. The Silit brand is manufactured in Riedlingen and is part of the WMF Group headquartered in Geislingen an der Steige, which has belonged to the French Groupe SEB consortium since 2016.
