Item No. 05.1561.5290

When used as specified, the transition of substances does not exceed the legal limits and the SRLs (Specific Release Limits) according to Council of Europe Resolution CM/Res(2013)9 on metals and alloys used in food contact materials and articles (effective 2013 – 1st Edition).

The tests are performed according to the Directive 84/500/EEC, last amended by 2005/31/EC, respectively according to the „Technical guide on metals and alloys used in food contact materials and articles “. The test for enamel was performed according to the standard DIN EN ISO 4531.

Specification of the intended use or limitations:

- Type(s) of food intended to come into contact with the material:

all types of food (aqueous, acidic, fatty)

- Intended duration and temperature of treatment and storage while in contact with the food:

repeated contact, short-time also above 100°C

- Ratio of the area of the food contact surface to the volume used to determine the compliance of the food contact material or article made from metal:

5,9 dm²/ L

This declaration is valid for the product delivered by us as specified above. Under consideration of the food contact conditions stated, the product complies with the stipulations of these Directives regarding the specified foods. The user shall verify himself that the product is suitable for the intended food beyond the stipulations of the Directives.

The validity of the declaration is ending if the requirements are changed.

This document was created electronically and is valid without signature.
